

## **Medicare Category Codes (C-Codes)**

### C-Code Cross Reference Guide and Summary

#### **MEDICARE HOSPITAL OUTPATIENT AMBULATORY PAYMENT CLASSIFICATION**

##### **(APC) Pass -Through List C-Code Cross-Reference Guide to Boston Scientific Products**

Medicare Reinstates C-Codes Effective January 1, 2004

Effective January 1, 2004, Medicare reinstated the 95 pass-through codes that were retired on 1/1/03. These C-Codes, which only apply to Medicare hospital outpatient claims, will not trigger additional payment to the outpatient hospital facility. They have been reinstated to assist Medicare in establishing future APC rates.

Below is an excerpt from the Centers for Medicare and Medicaid Services (CMS) — the federal agency that oversees the Medicare program — November 7, 2003 Outpatient Prospective Payment System (OPPS) Final Rule: “For 2004, we (CMS) are reactivating the C codes for device categories as they existed on December 31, 2002.” As of January 1, 2005, the Centers for Medicare and Medicaid Services (CMS) requires hospitals to report all device category codes (CCodes) on Medicare outpatient claims when medical devices are used in conjunction with procedure(s) billed. If C-Codes are not identified on submitted Medicare outpatient claims, the claims(s) will be returned to the hospital for correction.

#### **BACKGROUND:**

APC refers to the hospital outpatient payment system that was made effective on August 1, 2000. This system, mandated by federal law to replace the former retrospective cost-based reimbursement system, utilizes pre-set, capped payments for each APC. APCs cluster outpatient procedures into groups based on comparable resource use and clinical similarities. APCs pertain to Medicare outpatient services only and have no bearing on Medicare inpatient or physician reimbursement.

As of January 1, 2005, the Centers for Medicare and Medicaid Services (CMS) requires hospitals to report all device category codes (C-Codes) on Medicare outpatient claims when medical devices are used in conjunction with procedure(s) billed. If C-Codes are not identified on submitted Medicare outpatient claims, the claims(s) will be returned to the hospital for correction.
